Canada's life sciences industry has more than 1000 companies with \$2.4 Billion+ R&D and \$87.4 Billion revenues. Canada has strong strengths as an emerging leader in health AI, precision medicine, regenerative medicine, genomics & oncology, and also embraces other emerging trends of artificial intelligence, digital health, gene editing and infection control.

Canada, as the 8th largest medical device market and 9th largest pharmaceutical market, has 40 world class research hospitals, 17 life science networks/excellence centers, 800 drug products in the pipeline and 60+ incubators & accelerators supporting the life science industry development.

Canadian Trade Office in Taipei (CTOT) co-organizes with Taiwan Bio Industries Organisation (TBIO) and Alberta Taiwan Office on this Canada-Taiwan Life Science Forum during 2023 Bio Asia Taiwan week. Four Canadian companies and organisation with cutting-edge and innovation technology will be introduced to you in the post-COVID era!

This rare event occasion is free of charge. However, with limited seats available, we cordially invite you to register online ASAP at your earliest convenience.

- The seminar is free to attend, but due to limited seats, the organizer reserves the right to confirm registration 此為免費研討會，由於座位有限，主辦單位保有確認報名的權益，敬請見諒。
